Proof must be signed and sent or faxed back before printing will begin. Once proof has been signed no additional corrections will be made without additional cost.

Photo Requirements

We except digital photo files that are 1200X960 or greater. This size allows us to get a good printing results for most sizes. If you are looking for a large trading card please call before sending. All photos of the car must be sent in on a standard 35 mm print. Polaroids or slides will not be accepted. It is recommended that a first choice and a second choice be sent to assure the best quality. Purchaser assumes the responsibility for the quality of the photo taken and the effect it has on the final results.

PLEASE NOTE: IF YOU ARE USING A PROFESSIONAL RACING PHOTOGRAPHER, A SIGNED PHOTO RELEASE IS REQUIRED. CALL FOR A PHOTO RELEASE FORM.

Driver Information

All driver information for the back of the card must be filled out using the form on the back of this page.

Photo Tips

It is recommended that the photograph of the car fill the frame of the picture and that it be printed on a glossy or luster photographic paper. A badly exposed photo means you will receive a poor final product. Overexposed or underexposed photograph will result in a dark or light photo on the card. For best results always take a photograph with the sun to your back. A 3X5 inch photograph is fine but a 5X7 inch photograph is better for reproducing the image. Look for a nice clean background when taking photograph. ie. trees, wall, inclosed trailer. etc. **ALL PHOTOS WILL BE RETURNED WITH PRINTED CARDS.**
